Coming Alongside **June, 2021**

Everyday Evangelism

A 2021 Gallup poll indicated that only 47% of Americans are members of a local church, synagogue, or mosque. The percentage was 70% as recently as 1999. The 47% number is the lowest percentage in the past eight decades. Our nation is certainly not trending in a good spiritual direction and I know that many Christian leaders wonder about how this trend can be changed for the better.

To add further concern to the declining spiritual trends in our nation, we should also understand that according to a 2014 research project, 78% of Christians at that time had not shared their faith with anyone in the past 6 months. In other words, only 22% of believers had even claimed to have shared their faith.

So what can we do about these negative trends. I strongly believe that we must reclaim the biblical practice of equipping the saints for the work of ministry, especially in the realm of witnessing. The TBBA staff is coming alongside all of our pastors and churches to assist them in hopefully training thousands of lifestyle witnesses who will show and share Jesus anywhere and at any time. We don't need a new evangelism program but we do need an evangelism movement that is started

and sustained by God's grace through the ongoing biblical command to equip.

One of the evangelism training resources we now offer is called *All for One*. It is available for free and I encourage you to read about it below and watch the brief video.
